Dear Jerry,

As promised on the plane, here is a copy of our latest study on the world energy situation. I hope it will be useful to you.

It was fun to be together at The Homestead and to have a little extra opportunity to visit on the way home. I appreciated your incisive thoughts about NSA and other matters of intelligence. I hope I can make some moves in the directions you suggested.

All the best.

Washington, D.C. 20036

Dear Tom,

I mentioned to you once before how disappointed I was that you couldn't accept our invitation to talk to Agency and Community personnel last year and that I would be back at you. Here I am!

I would really appreciate your considering coming out here for such a talk. All of us have a high regard for your insights into intelligence from your writings, and I, of course, from my respect for you personally. We would want to utilize your appearance here as an opportunity to stimulate people to think in broader terms and further into the future than they normally do. The precise topic would be fully up to you. All I want to do is expand horizons about where intelligence fits into our country's requirements, what we'll have to do to produce good intelligence over the next decade, and how the various elements of the Intelligence Community can best fit together. Any part of any of those problems which you would address would be a valuable contribution to us.

The format would be a total of one hour and 15 minutes to be divided between your talk and questions and answers. We will use our main auditorium and invite employees of the entire Community. There is a \$500 honorarium. Our program usually runs on the second Tuesday of the month; I have 12 December in mind if that would be agreeable to you, but if that is not acceptable we can adjust to either December or January as might suit you.

I hope you can make it. In the meantime, all the best to you and Jean.
